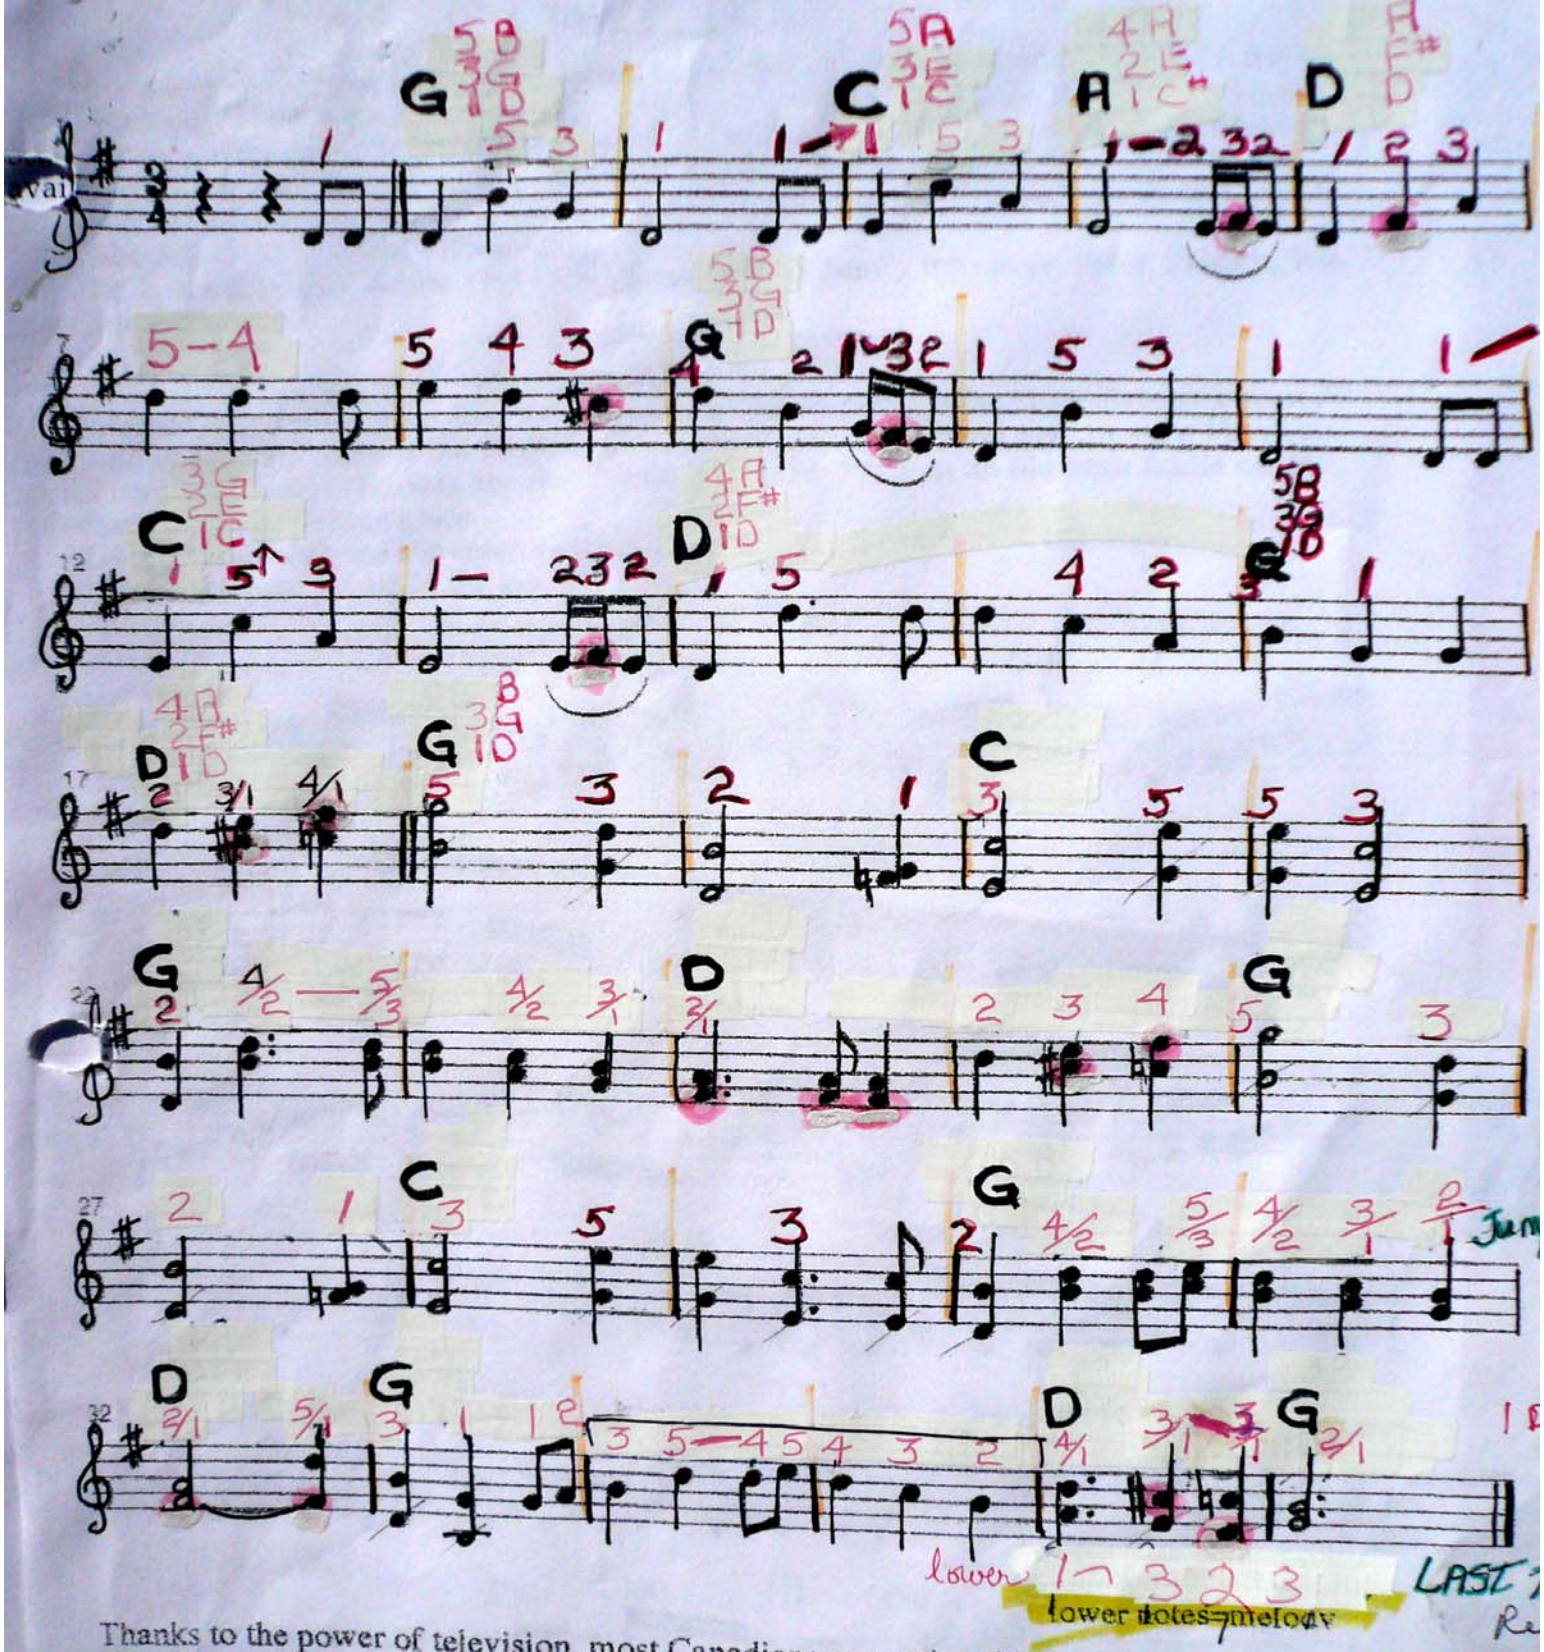
LOG DRIVERS WALTZ



Thanks to the power of television, most Canadians recognize this joyful melody from a National Film Board animation of Wade Hemsworth's song about a nimble-footed logger. The original song had a 4 measure instrumental turn-around after each chorus. This turn-around is included in this transcription (the final four measures). Notice that the first fiddle (melody) notes are the top notes of each pair except at the end where they are the bottom notes. On the CD, the lead fiddle is in the left channel and the harmony fiddle is in the right channel.
